

Portrait of a Graduate

by Battelle for Kids

DO YOU HAVE A PORTRAIT OF A GRADUATE?

Here's your opportunity to learn with and from other Minnesota districts as you each take this key first step in defining and realizing a 21st century vision for your district, and more importantly, for your students.

The MREA has partnered with Battelle for Kids to offer an efficient and impactful way for you and your community to collaborate in the creation of your district's Portrait of a Graduate, informed by three simple questions.

What are the **hopes, dreams, and aspirations** that your community has for every student in your system?

What are the **skills, competencies, and mindsets** that your children need to thrive in our ever-changing world?

What are the implications for the design of the **learning experience**—and the **equitable** access of those experiences—we provide in your school system?

Impacting the Lives of Every Student

The vision and desired competencies captured in your Portrait of a Graduate will impact the learning experience of every student in your system—from your youngest learners to your high school seniors. Helping them all become life-long learners and contributors to your community, our nation, and the world.
